PROFILE

Dynamic final-year student pursuing a Bachelor's degree in Information Technology and Business Information Systems at Middlesex University, London. Adept in software engineering principles and methodologies, with specialised skills in mobile and desktop app development using Kotlin, JavaScript, and other languages. Eager to apply academic knowledge and practical skills to real-world challenges in the intersection of technology and business. Seeking internship opportunities to gain hands-on experience and further develop expertise in information technology and business information systems while contributing to innovative projects and solutions.

EDUCATION

B.Sc. Information Technology and Business Information Systems

Middlesex University [🔗](#)

09/2023 – present
London,
United Kingdom

In this program, I am currently studying a range of relevant courses at Middlesex University, London, with an expected graduation date in July 2024. My coursework includes Strategic Information Systems, Business Intelligence, Interaction Design, and User Experience. These courses have provided me with a comprehensive understanding of both technical and business aspects of information technology, equipping me with the skills to develop innovative solutions that prioritise user experience and align with organisational objectives.

Advanced Diploma in Software Engineering

Aptech Computer Education

10/2021 – 06/2023
Abeokuta, Nigeria

Successfully completed an Advanced Diploma in Software Engineering Program at Aptech Computer Education, gaining exposure to a comprehensive range of Software Engineering concepts and acquiring technical expertise in highly sought-after technologies within this field.

PROFESSIONAL EXPERIENCE

Strategic Information Systems Module Project Middlesex University, London

Middlesex University

09/2023 – 04/2024
London,
United Kingdom

- Worked collaboratively in teams to set and achieve project goals.
- Successfully uploaded project goals to the **GOAL** [🔗](#) website.
- Demonstrated effective communication and teamwork skills in a project-based environment.

Business Intelligence Module Final Report Middlesex University, London

Middlesex University

09/2023 – 04/2024
London,
United Kingdom

- Selected and cleaned real-world datasets from Kaggle for analysis.
- Utilised Tableau for data analysis and visualisation, providing actionable insights.
- Applied data mining algorithms and preprocessing techniques using Weka to extract valuable patterns and trends.
- Presented findings in a comprehensive final report, showcasing analytical skills and attention to detail.

Student Responsive Web Development (RWD) Intern

Aptech Computer Education

01/2023 – 03/2023
Abeokuta, Nigeria

As a student Responsive Web Design (RWD) Intern, I actively assisted the instructor in imparting essential RWD concepts to students, which included:

- Assisting in conveying practical knowledge about the technologies used in responsive web design.
- Aiding in the explanation of key components and UI frameworks that facilitate the RWD concept.

SKILLS

Developing Web Applications using React.js

I possess proficiency in developing web applications utilising React.js, complemented by a robust skill set encompassing technologies such as Express, Node.js, and more. Additionally, I excel in designing and implementing responsive and feature-rich web solutions.

Working knowledge of Node.js

I have a strong foundation in backend development using Node.js, along with a deep understanding of backend technologies such as Express, RESTful APIs, MongoDB, and more. My knowledge extends to various aspects of backend development, contributing to a versatile skill set in building efficient and scalable backend systems.

Proficiency in Microsoft Office

Proficient in Microsoft Office, encompassing Word, Excel, PowerPoint, Outlook, Teams, and other tools, demonstrating comprehensive proficiency in utilising various productivity applications.

Android app development with kotlin

I have attained an intermediate level of expertise in Android app development with Kotlin and possess a strong knowledge base in Android technologies, including Firebase and Firestore. My proficiency extends to various aspects of Android application development, contributing to well-rounded skills in creating dynamic and efficient mobile applications.

Proficiency in Tableau for Data Analysis and Visualisation.

I am skilled in Tableau for data analysis and visualisation, honing my expertise during my final year at university. I create impactful visualisations and interactive dashboards, transforming data into compelling narratives for informed decision-making.

SOFTWARE PROJECTS

Tsks Task Tracker

12/2022 – 01/2023

Tsks is a straightforward web application designed for task tracking, Built using React, Sass, and Firebase technologies. It facilitates the management of daily tasks and leverages Cloud Firestore for efficient task storage and retrieval.

Speechify

01/2023 – 02/2023

Speechify, a web application created using React and Sass, offers the ability to convert written text into speech. It does this by harnessing the browser's speech synthesis utterance to convert the texts to speech. It's worth noting that the optimal performance of Speechify is experienced on Chrome and Brave browsers.

Weather Glitz

06/2022 – 08/2022

Weather Glitz, a web application developed with React and Sass, retrieves weather data from an API and presents it to users for their convenience and information.

CERTIFICATES

Certificate of Proficiency in Information Systems Management (CPISM)

August 2022

Diploma in Information Systems Management (DISM)

June 2022

Advanced Diploma in Software Engineering (ADSE)

June, 2023

AWARDS

TECHWIZ 3 - A GLOBAL I.T COMPETITION

08/09/2022

Aptech Computer Education India

In the Tech Wiz Global competition, our team addressed excessive clothing waste by creating a website selling thrift fashion items. Our solution mitigates environmental damage and revitalises older garments. We secured third place worldwide for our impactful website.
